

Smart Snacks Foods List

USDA’s Smart Snacks in school standards are practical, science-based nutrition standards for all foods and beverages sold or served to students during the school day. The new rule went into effect July 1, 2014.

This list is not all inclusive. Alternative items may be available at different stores. Manufactures’ ingredients and distribution change frequently. To find out if a food or beverage not on the list meets the standards, visit <http://tools.healthiergeneration.org/calc/calculator/> for an online calculator. If you wish to bring in an item not on the list, please input the nutritional information into the calculator at the above link and print the sheet showing its approval. The item will then be added to the approved snack list.
